

# SERMON QUESTIONS

1. Pastor Joel shared a recent advertisement indicating the only certain thing in life is science. As a nation, we have placed a great deal of our future strategy on the theories of science for this pandemic. Based on what we have experienced thus far, how certain are you that science holds all the answers?
2. Why is it true in life that the things which are good for us (physically, mentally, spiritually, etc.) are usually hard to live out?
3. Pastor Joel shared the stages that take place in moving from fear to learning to growth. What stage are you currently in and what has your process looked like?
4. What is the hardest thing for you right now concerning the Coronavirus?
5. When you have asked God why this is happening, what have you discerned thus far?
6. Is it possible that we are going through this time so God can prove a point to Satan? Does that possibility make this any easier? Is that “fair” from your perspective?
